

Dear Friends and Neighbors,

Four years ago I promised to stay true to the principles of our founding fathers embodied by our Party. Conservative principles like limiting the size of government, preserving individual liberty, and holding government accountable to the people.

We had talked about the importance of cutting taxes, increasing funding for education, improving transportation and protecting our families. I have stayed true to the issues we discussed four years ago and I believe you will find that the legislature, working with the Governor, has made progress in each of these areas.

During the last eight years I have gained invaluable experience as a state senator and have been able to help influence many decisions as Majority Leader of the Senate. There are still many things we can do together. For this reason I am asking for your support to return to the Utah State Senate to continue to bring Utah County values to help improve the State of Utah.

Sincerely,

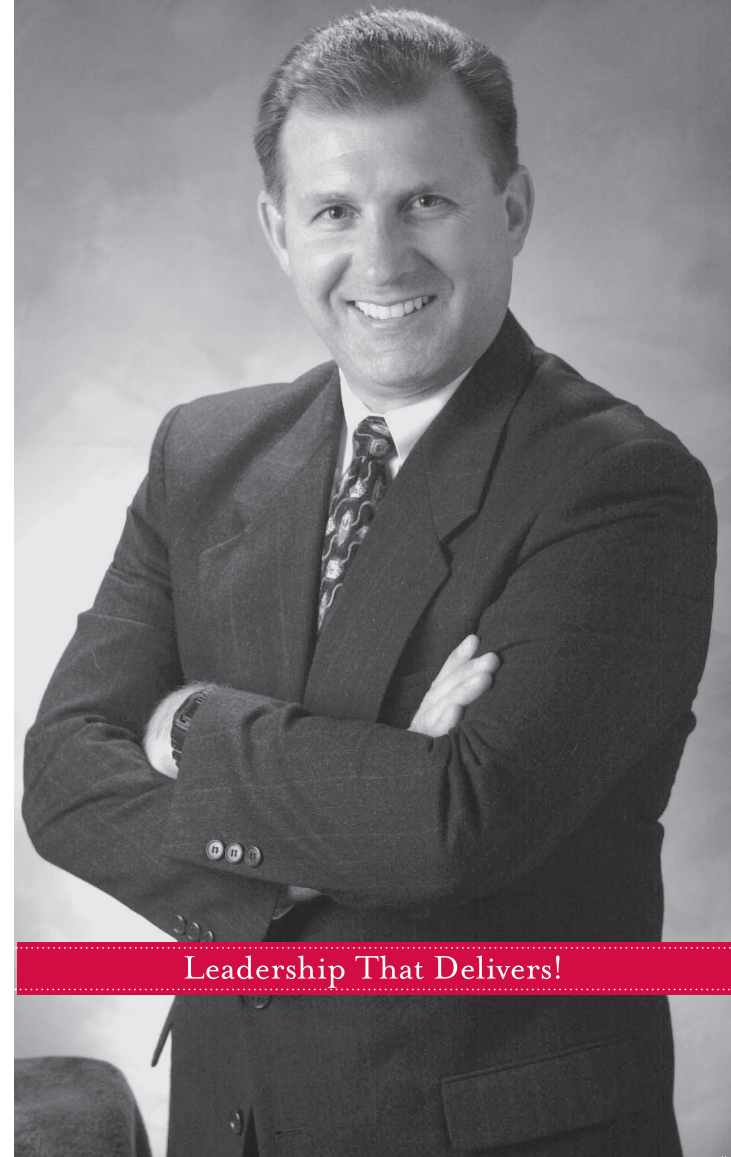

CURT

Senator Curtis S. Bramble
